DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 52-76 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dorchester'176 substantially for the same reasons as in the previous office actions. Applicants have introduced new claims and cancelled previous claims. However, the new claims are similar in scope and meaning as the previous claims. The examiner believes that the rejections are still valid. Also, applicants have reiterated their arguments. The examiner believes that arguments are substantially similar to previous applicants arguments that have been addressed before.
